

MEMORANDUM

TO: All Programs of All Inclusive Care for the Elderly (PACE) Organizations
FROM: HOS-M Project Team
DATE: October 28, 2019
RE: Medicare Health Outcomes Survey-Modified 2020 Administration

The Centers for Medicare & Medicaid Services (CMS) has contracted with the National Committee for Quality Assurance (NCQA) to oversee the administration of the Medicare Health Outcomes Survey-Modified (HOS-M) for Programs of All Inclusive Care for the Elderly (PACE). A CMS-approved survey vendor, DataStat, Inc., will conduct HOS-M in 2020 on behalf of PACE programs. CMS has also contracted with RTI International (RTI) to provide additional survey support in the administration of HOS-M, as well as data analysis.

The HOS-M is an abbreviated version of the Medicare Health Outcomes Survey (HOS), which CMS uses to assess participant physical and mental health functioning. CMS uses the HOS-M to evaluate program participants using limitations on activities of daily living (ADL) to generate information for frailty payment adjustment.

This memo includes the information your organization needs to comply with 2020 CMS HOS-M reporting requirements. This document is organized as follows:

- Reporting Requirements.
- Contracting With the CMS-Approved Survey Vendor.
- Survey Administration.
- Sampling Process.
- Contact Information.
- Attachment 1—List of PACE Programs Required to Report HOS-M.

Reporting Requirements

All PACE programs with Medicare contracts in effect on or before January 1, 2019, and with enrollment of at least 30 beneficiaries as of October 2019, are required by CMS to administer the HOS-M in 2020.

Contracting with the CMS-Approved Survey Vendor

DataStat, Inc. is the CMS-approved survey vendor for administering the HOS-M in 2020. Each PACE program must contract directly with DataStat, Inc., to administer the HOS-M. PACE programs are responsible for having survey vendor contracts in place no later than **Friday, January 10, 2020**.

DataStat, Inc.'s contact information is:

Ellen Johnson
DataStat, Inc.
3975 Research Park Dr.
Ann Arbor, MI 48108
Phone: (734) 994-0540 x158
E-mail: ejohnson@datastat.com

When contracting with DataStat, Inc., please keep in mind that PACE programs must cover the cost of survey administration.

The HOS-M Project Team closely monitors survey vendor performance as the survey progresses by reviewing survey vendor mailing materials and telephone scripts, requiring survey vendor progress reports, monitoring telephone interviewing, and performing site visits. The HOS-M Project Team also assesses survey vendor performance against both the *2020 Medicare Health Outcomes Survey Quality Assurance Guidelines and Technical Specifications V2.4* and the survey vendor's Quality Assurance Plan (QAP). The QAP documents all systems used to implement HOS-M, including telephone interviewing systems, data backup systems, and data security. The QAP also documents the process that the survey vendor uses to administer mailings and follow-up to respondents.

Survey Administration

The HOS-M will be administered from April through July 2020. The questionnaire is available in English, Spanish, Chinese, and Russian. PACE programs, depending on the size of their enrollment, will be required to provide information prior to survey administration, including contact information for each participant and up to two of their family contacts or other caregiver contacts.

CMS provides the HOS-M survey in English, Spanish, Chinese, and Russian in order to facilitate the participation of the broadest pool of plan members and promotes accurate measurement of the experience of Medicare beneficiaries enrolled in PACE programs. Collecting information from beneficiaries who can only respond to the survey in Spanish, Chinese, or Russian will also increase the usefulness of the HOS-M for quality improvement initiatives.

PACE programs should notify DataStat of any additional language translations needed for the HOS-M. CMS will consider these translation requests for implementation in future survey years.

RTI will draw the sample for 2020 HOS-M. To develop the sample frame, RTI works with PACE programs to verify mailing and enrollment information for program enrollees and to collect data for potential survey proxies. PACE programs should submit this information to RTI no later than **Monday, January 13, 2020**. RTI will hold an orientation webinar with programs on **Friday, November 8, 2019** to provide an overview of the 2020 survey administration process. Programs will receive information directly from RTI about the webinar.

If you have any questions for RTI, please contact:

Rebekah MacKinnon
RTI International
Phone: (919) 485-5766
E-mail: rmackinnon@rti.org

Sampling Process

The sample size for 2020 survey administration will be 1,200 for PACE programs with at least 1,200 participants. For smaller PACE programs, the entire eligible enrollment is included.

Programs with populations of $\geq 1,200$ participants

One thousand two-hundred (1,200) eligible program participants are randomly selected for HOS-M. Programs provide a list of those members who have become permanent nursing home residents, to be excluded from the survey process. Programs will need to append telephone numbers for each selected participant to a file provided by DataStat, Inc.

Programs with populations of $< 1,200$ participants

All eligible participants are included in the sample. Programs will need to create a detailed contact list for all eligible participants.

Contact Information

Please direct questions to the HOS-M Project Team at hos@ncqa.org.

Attachment

Attachment 1 is a list of PACE programs required to report HOS-M in 2020. If you believe that there are errors in this list, please contact the HOS-M Project Team at hos@ncqa.org. We look forward to working with your organization on this important endeavor.
